

# RESOURCES for the Workforce

## PRENATAL TO SIX DEVELOPMENTAL WHEELS

**A tool to share and a tool to use!**

Each stage provides a glimpse into the world of the infant or toddler, and guides interactions that promote nurturing relationships and healthy social-emotional development in children. Great for the infant & young child workforce to share with parents, caregivers, & professionals. Available in English and Spanish

**Include your logo!**

Customized logo, website URL, and/or QR code can be added to the front and back of the wheels on orders of 1000+! Invest in your next marketing tool by customizing these wheels.

# TESTIMONIALS

“

“I have found the Baby Stages Wheels to be very helpful in engaging the families in our Infant Mental Health Program, specifically early in the relationship. It encourages them to look at what their child is already able to do already and also to wonder about what their child will be able to do in the near future. Most of the families keep it on their fridge and refer back to them as the months go by. I love that it comes with a magnet on the back - such a neat detail!” ~ *Clinician*

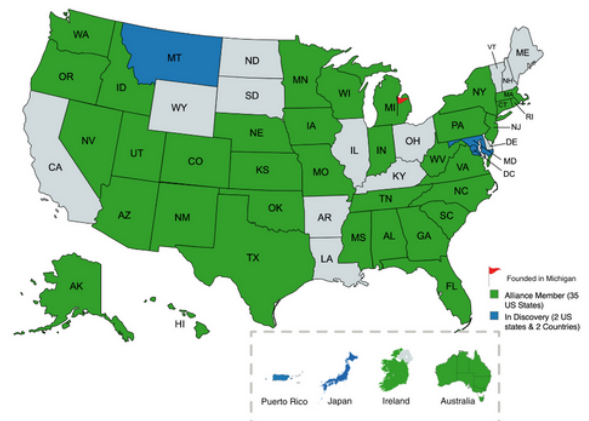

“We just bought 3,000 wheels to hand out at our community’s universal preschool event! The Preschool Wheel is a perfect way to engage new families as they are welcomed to our district. We included a QR code on the back so that families can have quick access to our website which includes other resources.” ~ *Program Director*

“I love having these available in Spanish and English! I also love the look - they are bright, engaging, and inviting. Families are excited to look at them and talk about what they see now and what may be coming next for their baby’s development.” ~ *HFA Home Visitor*
